Are you a parent, teacher, or guardian of a child connected to the U.S. Military or Veteran community? This spring, Northwell Health's Unified Behavioral Health Center for Military, Veterans, and their Families, powered by PsychArmor, will be hosting four group sessions for military and Veteran youth who live with an injured service member or Veteran. These meetings will encourage connection and community by empowering youth to talk about their experiences and connect with their peers. We are looking for eight, 10-12 year-olds to join us for these sessions starting late April, 2023.
