LOCAL AUTHORS

The **Brentwood Public Library** is excited to announce our new Local Author collection. We invite authors who live in, work in, or are from the Town of Islip to donate one copy of their published book(s) to be included in our **Local Author Collection**.

Please note the following guidelines:

- The Local Author Collection will be shelved alphabetically by author keeping the focus where it belongs – on the author.
- Books included in our Local Author Collection will be accessible through the library catalog, searchable by both title and author.
- All titles added to the Local Author collection will remain in the catalog and be available upon request for as long as space permits and depending on circulation.
- All titles donated are done so with the understanding that they will be included in the adult collection and so must be written with an adult audience in mind.
- Authors represented in the collection are encouraged to provide a brief biography (no more than 200 words).
- Authors represented in the collection may be photographed for future publicity.

At this time we are only accepting fiction and memoirs. For more information, please contact the Adult Reference Department.
